Increasing Disability Confidence

Nearly one in every five people in the UK has a disability or impairment, and over half of households have a connection to someone with a disability. Their collective spending power – the Purple Pound – is worth £249 billion to the UK economy and the same proportionately in Guernsey.

However, this potential is not being fully realised. There are still real (and perceived) barriers that make it harder for disabled people to find work, spend money online and in store, and enjoy a drink or meal out.

The aim of the Accessible Town project and Purple Tuesday is to make customer-facing businesses more aware of these opportunities and challenges and inspire them to make changes to improve the disabled customer experience over the long term.

The Accessible Town project is a collection of initiatives that will focus on improving accessibility, in its widest context, in Guernsey. It's all part of the #MakeAChange campaign to work with local businesses to increase their confidence around inclusivity and accessibility and what's called 'Disability confidence'.

Our mission: Access for All works in partnership with the community to improve accessibility, in its widest context, for islanders and visitors alike. This includes four key areas of access: Physical, Information (online, signage & hard copy), Activities and Services.

Access for All is a registered Guernsey registered charity CH542 (AGC) and GDA member charity. We receive no funding from the Government.

We are a group of islanders, and their families, sharing our stories of living with disability in the island of Guernsey. We want to raise awareness and change the way the Guernsey Community thinks about disability locally.
